Training for Healthcare professionals working with children and young people with asthma

Healthcare professionals who come into contact with children and young people with asthma can now access accredited asthma courses via Health Education England (HEE)

HEE is offering a five-tiered approach to the level of care a person may be expected to deliver to a child or young person with asthma. Tiers 1, 2 and 3 are free to access and each tier is designed to provide you with the skills and knowledge to safely care for a child or young person with asthma.
